EDUCATION

University of California, Irvine

Irvine, CA

B.S. Informatics, Donald Bren School of Information and Computer Sciences | GPA: 3.66

Expected Spring 2027

- **Relevant Coursework:** Data Management (SQL), Health Data Analytics, Statistical Methods for Data, Information Visualization, Engineering AI Software, Software Design, Requirements Analysis & Engineering

EXPERIENCE

AI Agent Engineer Intern

Jun. 2026 – Present

OC Vibe + CEO Leadership Alliance Orange County

Orange, CA

- Owned an early-stage internal AI chat platform 0-to-1 (Azure infrastructure, Python backend) with minimal vendor support, reverse-engineering the system and establishing a dev-to-production workflow
- Ran user research with staff to surface workflow gaps and usability pain points, then scoped and shipped an interface redesign that expanded functionality and increased platform adoption by **8 staff users**
- Advised leadership on AI adoption best practices and added an in-platform AI literacy hub with educational content that taught staff to use AI tools effectively, curbing the team's recurring token spend by **10%**

PHIT Intern

Jan. 2026 – Jun. 2026

UCI PHIT – Rady Children's

Orange, CA

- Led feature scoping and end-to-end build of an AWS-hosted proof-of-concept AI-powered pediatric health platform across a cross-functional intern team, developed to demonstrate the concept to leadership for buy-in
- Contributed to the platform's PostgreSQL data model and wrote SQL (joins, aggregations) against it to power participant profiles, goal tracking, and check-in data
- Built the retrieval-augmented generation (RAG) pipeline end-to-end: embedded peer-reviewed exercise-medicine literature with PubMedBERT into a ChromaDB vector store with condition-aware reranking and token-budgeted retrieval, grounding a workout-recommendation agent in clinical evidence
- Designed an 8-profile agent-evaluation suite enforcing machine-checkable safety invariants (intensity ceilings, minimum warm-up, required safety cues) and citation coverage; the agent passed all safety checks across the suite, validating the prototype's clinical safety

Information Technology Intern

Jan. 2025 – Jun. 2025

California Department of Public Health – Childhood Lead Poisoning Prevention Branch

Hybrid, CA

- Built a Python automation that normalizes Excel datasets by header schema, eliminating manual data prep for nurses and streamlining a recurring operational workflow
- Converted a legacy PDF form into a digital PowerApps form, cutting the data-entry workflow **in half** by eliminating one of its two manual steps

PROJECTS

IrvineHacks 2026 – FASTer | Figma, FastAPI, Gemini API | Devpost

Feb. 2026

- Won First American Best AI Usage; ran stakeholder interviews to identify pain points within an internal tool, then defined and scoped a redesigned product from the findings
- Built a FastAPI service using Gemini-2.5-flash to classify extracted legal data into PASS/WARNING/FAIL states, reducing manual document review effort

Codec Club Hub | Python, Flask, ChromaDB, Sentence-Transformers | View Site

Nov. 2025 – Present

- Built and deployed a semantic search engine matching students to **100+ UCI clubs/organizations** via natural language queries, lowering the barrier to campus involvement and accruing an average of **6 daily users**
- Instrumented **click-logging telemetry** capturing **145+ real user searches** and click positions, building an evaluation loop to measure retrieval quality and prioritize ranking improvements
- Owned a 0-to-1 product end-to-end: drove scoping, design, and development through bi-weekly stakeholder meetings with a faculty advisor, incorporating feedback into each iteration

TECHNICAL SKILLS

Data & AI: PostgreSQL, RAG pipelines, Vector Search, Embeddings, Linear Regression, Agent Evaluation, FastAPI, ETL / Data Extraction

Programming: Python, SQL, JavaScript, Java, HTML/CSS

Tools: AWS, Azure, Jira, ServiceNow, Figma, PowerApps, Power Automate, Excel, React, Git

Certifications: IBM Data Analyst Professional Certificate, Python for Data Science & AI (IBM), Claude Code 101

Languages: English, Spanish
