Education

University of California Irvine Irvine, CA

B.S. Informatics, Health Informatics Specialization | ***GPA: 3.66*** *Sep. 2023 – June 2027*

- **Relevant Coursework**: Human-Computer Interaction, User Interaction Software, Information Visualization, Designing for IoT, Software Design, Requirements Analysis & Engineering

Experience

AI Adoption Specialist Sep. 2026 – Present

SafeLab AI Engineering *Irvine, CA (Hybrid)*

- Co-led client discovery sessions, mapping each workflow into steps, handoffs, decision points, and failure modes to surface how work actually flows rather than how it is documented
- Prototyped recommended solutions in **Claude**, then helped the client implement them and wrote setup, usage, and debugging docs for its users

AI Agent Engineer Intern Jun. 2026 – Present

OC Sports & Entertainment – OCVIBE *Orange, CA*

- Grew platform adoption **36% (64 to 87 users)** by leading staff user research on workflow gaps and usability pain points, then prioritizing and shipping an interface redesign
- Ran competitive analysis of the ChatGPT and Claude UIs and anchored the redesign in that familiarity, sketching to wireframe the UI and user screen flows once research surfaced the need for a projects section
- Iterated on the interface with **Claude Code CLI** and **React**, refining layout, typography, and color until the UI matched the company's design template

PHIT Intern Jan. 2026 – Jun. 2026

UCI PHIT – Rady Children's *Remote*

- Led scoping and design of an AI-driven pediatric health platform across a cross functional intern team, running weekly stakeholder reviews and iterating deliverables from feedback
- Used AI dev tools alongside **Figma** to rapidly generate and test high-fidelity UI components, tuning an approachable, energetic experience to teenage psychology and tech comfort

Healthcare Administration Micro Intern Jun. 2025 – Aug. 2025

Kaiser Permanente *Harbor City, CA*

- Recruited and interviewed **12+ stakeholders**, affinity mapping in **FigJam** to surface a key pain point
- Ran competitive analysis and prototyped a patient-facing dashboard in **Figma** addressing ambiguous emergency-room wait times, iterating toward a clear user centered solution
- Presented the end-to-end product concept to a panel of hospital board members and clinicians, fielding cross functional scrutiny and defending design decisions

Projects

FASTer A UI/UX Redesign | *Research, Prototyping, Wireframing* | **Devpost**

Track Winner IrvineHacks 2026 – First American Best AI Usage in Real Estate

- Ran user research with First American stakeholders to reverse-engineer the FAST system and its pain points
- Translated research into **high-fidelity Figma prototypes**, using Figma Make to validate user flows
- Designed PASS/WARNING/FAIL card states surfacing AI validation results, reducing user error

Reddit Redesign | *User Research, Accessibility Review, Prototyping* | View Project Fall 2024

- Led a **WCAG based accessibility review** of Reddit with severity ratings, flagging inconsistent, unlabeled post icons and benchmarking fixes against Yellowdig, Tumblr, and Discord
- Wrote the user story behind a **topic and tag filter system** and labeled post buttons, which the team took from paper sketches to a clickable **Figma** prototype matching Reddit's color, type, and icons

Technical Skills

Design & Prototyping: Figma, FigJam, Figma Make, Wireframing, Prototyping, User Research, Affinity Mapping
AI Tools: Claude Code, Gemini CLI, Codex CLI, RAG Pipelines, LLM Prompting
Languages & Dev: Python, SQL, JavaScript, HTML/CSS, Git, Docker
Certifications: Claude Certified Developer – Foundations (Anthropic), IBM Data Analyst Professional Certificate
